## VISION

Unrivalled Leadership in Plastic Piping Systems.

## SHEQMS Policy

(Safety, Health, Environment and Quality Management System Policy)

Proplastics is committed to providing high quality products and services through implementation of a sound Safety, Health, Environment and Quality Management System (SHEQMS) through:

- Adherence to compliance obligations.
- A risk-based thinking approach.
- Innovation and bench marking ourselves against world class standards.
- Managing significant aspects and hazards effectively.
- Ensuring zero tolerance to injuries and work-related ill-health.
- Sustainable resource utilisation and pollution management.
- Smart partnerships with all our key stakeholders.
- Consultation and participation of all employees on relevant SHEQMS issues.
- Training and awareness of employees and other key stakeholders on SHEQMS.
- Having unsurpassed business excellence, through establishing, communicating and reviewing our SHEQMS objectives and policies for continual improvement.

Our commitment to these objectives is reflected by incorporating Safety, Health, Environment and Quality planning into all aspects of the business. Proplastics SHEQMS specifications are developed to be compatible with ISO 14001:2015 (Environment), ISO 45001:2018 (Health and Safety) and SABS 9001:2015 (Quality) management system standards.
